SUMMARY:

Created an e-commerce gaming gadget webstore named AlphaGaming by using HTML, CSS, Bootstrap 5 and Javascript.

In index page ,created navigation , About us, Carousel, Products and footer.

In login in page , created user login and new registration for new users.

In feedback page ,created users feedback using javascript to display thanks message.

In product page ,created 6 product with carousel with price , specifications, features and buy button.

In address page ,created users to enter their address like name, phone number, Address, City, Pin code and also created javascript validation so that user cant go to next page without entering any details.

In bill page, created users to enter their payment through card details like name, credit card number , exp year, CVV also created javascript validation so that user cant go to next page without entering any details and pay now button to go to confirm order page.

In thank page, created a pop up box to display order confirmed message.
